

## TO ALL INTERNATIONAL INSTITUTIONS

We demand the sacrosanct right to self-determination, a right recognized even by the Charter of the United Nations, through a clear stance against the criminal policies of a stateless financial dome, led by a handful of unscrupulous debt printers and without guarantees, whose only values are nihilistic relativism and the culture of death camouflaged by health and ecological well-being.

Despite the censorship and propaganda that has been in place for some time, which you now impose in an increasingly pervasive and effective manner, you will face the consequences of your choices made without our consent.

We know your true motivations behind the suicidal war in Ukraine.

We know your true motivations behind the war in Palestine.

We know your true motivations behind the wars in Africa.

### **We chose!**

We stand with oppressed people, regardless of their ethnic origin or religious faith. We reject all wars because we are all brothers and sisters

### **Our enemies are those who::**

with virtual money they buy a debt that they force us to take on and use it to enslave us

- they corrupt heads of state and destabilize governments
- they want a population decimated, poor, weak and fed on genetically modified foods
- they cancel our human and social rights to fill us with the void of their sociopathic theories

### **We reject your criminal choices::**

- allocate billions of euros to the weapons you use in wars of extermination. cut billions of euros in social assistance and health care.
- abandon the last to their fate
- destroy the environment, territory and landscape with chemtrails and climate war

**We reject any hypothesis of a single world government perpetrated by supranational bodies whose**

**the liberticidal goal is to eradicate the thousand-year-old roots made up of different traditions and cultures.**

**We reject any attack on the dignity of peoples due to a so-called “New World Order” which pursues market logic, profit at all costs and population reduction.**

**You claim the right to represent us and impose on us the rules of supranational organizations that no one elected (like the World Economic Forum) so you will answer for any action taken against the People.**

**When you'll become useless to those who direct your actions today YOU WILL BE ALONE facing your responsibilities and the betrayed People will judge you.**

**WE WANT TO BE ON THE RIGHT SIDE OF HISTORY AND ON THE SIDE OF THE TRUTH NOW YOU MUST CHOOSE: EITHER WITH THE PEOPLE OR WITH EVIL, CRIMINALS AND GLOBALISTS.. THE DIGNITY AND HONOR OF THE PEOPLE ARE SACROSANCT AND NO ONE WILL NEVER BE ABLE TO BUY IT**
